

# Environmental initiatives(1)

## Examples of initiatives at Park Place Oita

### ■ Greenery and water amenities

#### Reducing CO<sub>2</sub> with trees and planters

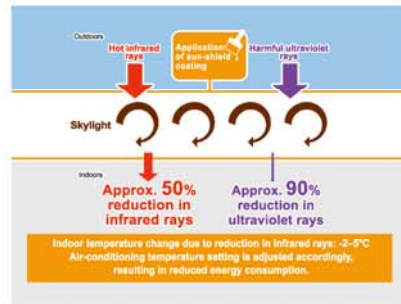

#### Fountain and waterfall that utilize groundwater

#### Installation of LED lighting

#### Reduction of air-conditioning load

- \*Reduced its lighting's annual power consumption by 64% through installing LED lighting.
- \*Applied a sun-shield coating to skylights to reduce air-conditioning load and exposure to ultraviolet and infrared rays. In the winter, Park Place Oita maintains indoor temperatures to prevent heat from escaping.

### ■ Reuse of resources

Endeavored to reuse resources, partly by installing on-site recycling receptacles, including collection bins for PET bottle caps.

#### Collection of PET bottle caps

#### Installation of recycling receptacles

Recycling receptacles installed on-site collect PET bottles, aluminum cans, glass bottles, milk containers, and other refuse as valuable, reusable resources.
